MESSAGE FROM MAYOR PARKER

“ Our International LGBTQ+ Leaders Conference is a unique three-day experience that brings together more than 600 LGBTQ+ elected officials and leaders from across the United States and world. U.S. senators, state legislators, city councilmembers and other leaders join our corporate partners in strategizing how to move forward equality legislation and other public policies that affect all our communities. The networking, skills-building and policy conversations these LGBTQ+ leaders participate in have a profound effect on where our movement directs its energy next – and that is why our partners find the conference so invaluable.

MAYOR ANNISE PARKER
PRESIDENT & CEO

CONFERENCE HISTORY

In 1984, two dozen LGBTQ+ elected officials came together for the first time and determined there were no more than 50 out LGBTQ+ officials in the entire world. Forty years later, the International LGBTQ+ Leaders Conference attracts more than 600 attendees annually and is the preeminent leadership event for LGBTQ+ elected officials looking to exchange ideas and determine legislative and policy priorities for the coming year. The three-day conference includes plenary events, issue-based workshops, networking and an exclusive LGBTQ+ elected officials track for those leading on LGBTQ+ legislation and policy worldwide.

“ At Genentech, embracing the increasingly diverse world around us is core to our business strategy. We believe in diversity of backgrounds and perspectives - including race/ethnicity, gender, LGBTQ+, veteran and accessible communities - uniting us behind a common purpose and drawing on the strength of that diversity to drive better science and health outcomes. We are so proud to support the incredibly vital work of LGBTQ+ Victory Fund and LGBTQ+ Victory Institute to advance the representation, rights and dignity of the LGBTQ+ community.

“AARP’s commitment to LGBTQ+ older adults can be measured by what we say, what we do, and who we collaborate with. Our work with LGBTQ+ Victory Institute continues the conversation related to caregiving, livable communities, and the need for data collection and puts it center stage for our out elected and appointed officials here and around the world.
